Email:pandenierro@gmail.com

Site: <https://erro-cv.herokuapp.com>

Summary

Computer Science Student specializing in software development. Experienced with all stages of the development cycle for Web projects, Android and IOS Applications. Well-versed in Installing, setting up monitoring and maintaining systems. Strong background in customer relations.

Skill Highlights

- Paying attention to details
- Strong decision maker
- Complex problem solver
- Creative design
- Innovative
- Service-focused

Experience

Programmer Trainee - 02/2020 to 05/2020
Alphanumeric Inc, Windhoek

Web Developer Intern - 10/2019 to 11/2019
Connect Technology, Windhoek

React Native Intern- 02/2018 to 07/2018
4Bit Namibia, Remote

Assistant(Holiday Job)- 11/2013 to 01/2014
Pronam Traders, Ongwediva

Education

Bachelor of Computer Science: **Software Development** - 2016 - present
Namibian University of Science and Technology, Windhoek

Languages

English – Fluent
Oshiwambo – Fluent

Certifications

Unity 3d Artist(certificate): **Coursera, (Online Course)**
Languages: **Js,C++, C#, HTML5, PHP,Python, Java, CSS, SQL, MySQL.**

Republic of Namibia

Ministry of Education, Arts and Culture

**Namibia Senior Secondary Certificate
(Subject Award)**

This is to certify that the candidate named below was awarded the following grade(s) for the subject(s) shown in the examination of October/November 2015.

RE: Letter to Employer on behalf of Mr Erro Remainder Ashivudhi (student no: 216019362)

Dear Sir/ Madam

The Faculty of Computing and Informatics at the Namibia University of Science and Technology (NUST) is offering the Degree - Computer Science specializing in Software Development. The Degree was designed in close co-operation with the local industry. One of the key components of these courses is a practical in-service training (*hereafter called "Work Integrated Learning"*).

Please allow me to elaborate a little on our **Work Integrated Learning** program:

The work integrated learning component is scheduled for the final semester where the student will spend 12 weeks in the industry. One of the requirements is that students passed all 2nd years subjects. Therefore, we assume that all students qualifying for the work integrated learning have a sound theoretical foundation. The primary purpose of the student's work integrated learning semester is to provide the student with the opportunity to obtain hands-on practical experience in his/her relevant field of study. For this reason, it is imperative that the employer subject the student to meaningful and stimulating activities that are related to the student's field of study; e.g. minor software design and implementation projects, elementary research, administrative work, participation in related projects, etc. It is important that work accomplished by the student prove meaningful and beneficial to the employer. This aspect of the student's practical training will play a major role in his/her final assessment by NUST.

During the work integrated learning, the department will continue to support and to supervise the student. For each student there will be one staff member appointed for supervision. This staff member together with the supervisor of the hosting institution will evaluate the work of the student.

This letter also serves to bring to your attention the continuous need for positions in Industry where the above-mentioned students can be placed for the purpose of performing their **work integrated learning**. Whilst we academic staff and students at NUST firmly believe that the studies offered are meaningful and relevant to the requirements of the country, we would like to think that we can count on your valued support, not only in providing bursaries but also in giving employment opportunities for students doing their **work integrated learning**. This will make a valuable contribution towards the development of the graduate who eventually approaches you for employment.

May I request that you mandate the decision makers in your organization who are involved with recruitment and employment of technical personnel to proceed with the necessary steps to support students in this regard.

Thank you for your co-operation.
Yours sincerely

Mr. Gereon Koch Kapuire
Co-coordinator: Work Integrated Learning (Software Development)

Testimonial for Ashivudhi Erro-Remaider

This letter serves to testify that **Erro, D.O.B 06-12-1997**, is a learner at our school.

He has been a learner at Gabriel Taapopi Secondary School since 2011-2015.

During the afore-mentioned period, I have been teaching him I have observed that he is a well-disciplined learner, thus I did not experience any undesirable behavior from him. He has shown high personality values. He has also shown sincerity and dedication to any task assigned to him. **Erro** is a learner who with his kindness gets along very well with his schoolmates as well as staff members.

His academic performance is Satisfactory. **Erro** has partaken in extra-mural activities such as sports (Basket ball and School choir).

I therefore strongly recommend him for admission, scholarship or job opportunity he may apply for in your institution.

Yours faithfully,

Ruti Antonio
